

LAB ALERT: GENERAL COMMUNICATION**NOTIFICATION DATE: 7/30/2013****EFFECTIVE DATE: 7/30/2013****CMV PCR tests for Plasma (CMVQT) and Non-Blood (CMVNBL)****TEST CODES:** 1004168 (CMVQT) and 1004169 (CMVNBL)

As announced on July 24, 2013, we will begin offering new tests for CMV PCR tests for Plasma and Non-Blood samples on July 30, 2013.

During interface testing of the new codes with Texas Oncology, results did not properly map to iKnowMed. An urgent Heat ticket has been opened with the iKnowMed team to resolve the issue. During the interim period, however, please take the following steps when ordering a CMV PCR test:

- 1) Continue to order using the previous test codes (CMVMOL, CMVPCR, CMVNB)

Test Code	Test Name	Interface Code
CMVMOL	Cytomegalovirus (CMV), Quantitative by PCR	1002488
CMVPCR	Cytomegalovirus, PCR, Blood	1000227
CMVNB	Cytomegalovirus PCR, Non Blood	1000221

- 2) Be aware that ClearPoint will be resulting the tests using the newly announced methodologies
- 3) Results will be returned to your site via facsimile and should be manually loaded into iKnowMed

We apologize for this inconvenience and expect these issues to be resolved early during the week of August 5th. If you have any questions, please contact your Account Manager.
